100% for you. The Sprinter.

The "sensual purity" design concept delivers an impressively puristic and modern design on all vehicle surfaces. Highlights include the characteristic front-end look with centrally positioned large Mercedes star and the side view featuring surfaces which blend fluidly into one another. Further design elements can be selected, including LED High-Performance Headlamps with partial-LED tail lamps, high-quality light-alloy wheels as well as various paint finishes and special paints. These make it possible to give the vehicle an individual look and serve to perfect adapt the vehicle to the design of your desire.
